THE BROADWAY POST OFFICE LETTER CASE—THE FOLITICAL SQUABBLE ENDED.

Before Justice Oaborne.

It will be recollected that just prior to the last fall election, a seizure of a lot of envelopes, containing tickets for voters, intended for the election, were made at the Broadway post office, and that Mr. Daniel E. Sickles was said to have been concerned in the capture of said letters, in order that the public might not be misled by a spurious ticket. The trespass was brought before the magistrate, and an attempt made to prosecute the defendants criminally. Several hearings were had, but it was found very difficult to enforce the attendance of witnesses. The case was yeterday set down for a farther hearing; and Mr. Harriott, proprietor of the Broadway post office, having been subponaed, instead of appearing, sent the following letter to the magistrate:—

Braa Size—Thave received your communication requiring my attendance as a witness, in the matter of the seizure of circulars at my office in October list.

Von will remember, and it also appears by the records of the court, that in Jenuary last I made a complaint against D. E. Sickles for assault and hattery; which complaint having been settled according to law, was dismissed. Such being the case. I have no further criminal complaint to make against thin; and as I am unwilling to become an instrument in the hands of others to gratify mere political revenge. I have no sympathy with, and will lerd no voluntary aid to, the prosecution new sought to be instituted.

Under these circumstances. I have consulted counses as to whether it is my duty to appear and testify in this matter, as I now stands; and I am advised, that inamuch as no sufficient complaint has yet been made, there is no lawful autherity requiring me to testify. And while communicating to you my determination to act in accordance with the instructions of my counse, allow me to disclaim all intention of eviacing the elightest disrespect to your numberty as a magistrate.

Violent Assault on a Police Officer.—On Sunday evening, Sergeant Crapet of the Seventeenth ward, witnessed two young men named Wm. Tygh and Thomas McConlin, conducting themselves in a very disorderly manner, when he interfered and requested them to leave the vicinity, which they were annoying with their riotous conduct. They rejused to go, and immediately made a violent assault on the officer, tore his star from his cont and beat him in a shameful manner. Ex deputy sheriff Chase happening to be near the scene of disturbance, came to the assistance of the polloeman, and in so doing was struck violently across the back of the neck with a club, and badly injured. Other officers came to their aid and the two rowdies were arrested and conveyed to the station house, and in the morning were taken before Justice Welsh, who committed them to prison in default of bail, to answer the charge at court.

A Fraudulent Segar Operation.—Yesterday Officer Wildey, of the Second District Police Court, arrested a Spaniard named Miguil Brevant, of No. 140 William street, on a warrant issued by Justice Start, wherein the accured stands charged, with another man named Joseph Higus, with obtaining from James R McCullough, on the 21st instant. ten thousand segars, valued at \$170. It seems that McCullough offered the segars for cash, and Brevant said he would buy them, and induced McCullough to bring them to the store kept by the accused. Higus then asked McCullough to accompany him to a place a short distance from the store, and before they returned Brevant had caused the segars to be removed from the store to some place unknown to the complainant, whe in payment for the segars was offered a promissory note at sixty days. It is now charged that the taking of the segars amounts to a largeny, and Brevant, when brought before the Court, was locked up by the magistrate to avait an examination.

Resolved, That the Committee on County Offices be acd are hereby directed to consult with the judges of the various civil courts, relative to the number of attendants they will require this Board to supply them with, in place of the policemen detailed at present. Adopted.

The petition of Junges Lynch and Cowlet, the present justices of the Marine Court, for extra compensation for increased judicial labors, was referred to the Committee on County Offices.

RALARY OF THE JUDGES HIET.

The report of the Committee on County Offices was received, recommending the salaries of the Judges of the Marine Court, to be \$3,000 each per annum, from Maynext in lieu of all fees and perquisites.

The Eugervisor of the Third ward opposed the increase. The Riccounts, in consequence of the immense amount of tavation, opposed the increase to \$3,000. There were to be three Judges of the Marine Court henseforward, and that would neet the additional amount of labor which the increased jurisdiction would entail upon them. He would therefore propose that, instead of \$3,000, the Judges of the Marine Court be paid \$2,000 each. Alderman Oakkery moved that the bill be laid on the table, which being seconded by Alderman W. Smith, was carried.

Theatre. The house will be splendidly illuminated, and no doubt the American tragedian will be called before the curtain and make a speech expressive of his gratitude in having through the patronage of the lovers of the drama thus achieved the second greatest histrionic triumph on record—the first being his former engagement here for ten consecutive weeks. The play on this occasion is to be "Othello." "Macbeth" will be produced on Monday mext in a costly and splendid style, with twenty-seven new scenes, new costumes and decorations, and a strong operatic chorus, which will give to this tragic masterpiece all the charms and attractions of novelty.

Bowsky Theatric.—The selections made for this evening by manager Stevens consist of the beautiful comedy of the "Honeymoon," Mr. Eddy as Rolando, and Mrs. Addams as Zamora. The amusements will conclude with the "Monk and the Gipsy." As the receipts are for the tenefit of Mr. W. T. Peterschen, the leader of the orchestra, who is a great favorite, it is presumed the house will be crowded. Adkins' celebrated brass band will play several beautiful pieces of music.

Busyon's Theatric.—This place of amusement continues to be liberally patronized by the admirers of good acting. The pieces selected for this evening are "Civilization" and "Black Eyed Susan." Those who may visit Chambers street to night may rest assured of being highly delighted by the performances, as the artists generally are persons of great dramatic celebrity. Burton is a host in himself, not to speak of Placide, Dyott, and other eminent actors.

National Theatric.—The production of the new piece

National Theatre.—The production of the new piece called the "Armorer of Tyre," has resulted very profitably for the manager of this theatre; indeed he has spared neither exertion nor outlay of money, in order that it should be put on the stage in splendid style. The scenery is beautiful, and the dresses and appointments rich and appropriate. It will be repeated to night, to gether with the farce called "Too Late for the Train."

WALLACK'S THEATRE—The internal arrangement of this theatre is such as to command the respect of the visiters—the greatest attention to the comfort of the audience is paid by civil and gentlemanly attendants, and the stage management by Mr. Lester is capital. The pieces announced for this evening are, "Time Works Wonders." "Two Can Play at that Game," and the 'Iri la Tiger." Mr. Blake, one of the best comedians in the States, takes his benefit to morrow evening.

American Museum —The selections for this afternoon consist of the farce entitled "Allow me to Apologise," which will be followed by the "Milliers's Holiday," and in the evening the beautiful drama called the "Willow Cope," in which Mr. C. Sr. Charles.—The entertainments at this establishment consist of the spectacle called the "Mili'ary Execution," with Mr. Cook and Miss Mitchell in the leading parts. This piece will be followed by "Eveleen Wilson," and the asmstments close with "To Paris are Back for Five Pounds." Mr. Pilgrim is a great acquisition to this theatre—he has ably dramatised several works, and we understand his friends contemplate giving him a complimentary benefit—let him have one—he deserves it.

Bowner Checks.—Madigan & Stone's troupe of equestrians appear to night in a variety of exercises in the ring. The graceful equestrienne, Miss Rose Madigan, as also Mr. Hiram Franklin, who is considered, for his vaulting, somerseting, and horsemanth's, to be inferior to none in the world, will appear. A visit to the Circus will amply repay those who a minic equestrian sports.

Mes. McCready.—The termination of Mrs. McCready's short engagement at the Howard Atheneum has been made the occasion for a very general expression of critical opinion, as to her dramatic talent, voice and personal appearance, by the theatre going portion of our "solid" neighbors. The impression which she has produced is decidedly favorable. Her talent is considered to be of the highest order; and all are agreed in the assertion that her voice is very line, her figure faultloss, and her address tagy-like. This, for an actress fresh from the drawing room, is very flattering, and gives promise that Mrs. McCready is destined to "star" it. Miss Fitzpatrick had played Helen to the Julia of Mrs. McC. to an overflowing house.

4. Against Samuel M. Williams et al., the President, Cashier and Directors of said bank, charging in the petition illegal banking during the months of November and December. 1852, and January and February, 1853, and claiming the fine for each month as a separate offence.

5. Against Samuel M. Williams et al., being such as were known to be directors previously to the present directory, and against the cashier, for illegal banking, during the months of April. May, June, July, August, September and October, 1852, and claiming the fine for each month as a separate offence.

The chairman of the State Democratic Central Committee has called a convention to meet in Washington on the 15th of June, to nominate candidates for Governor and Lieutenant Governor.

Mr. E. Dixon, who was severely injured by the explosion on the steamboat Farmer, died in Galveston.

The News, of the 15th, has the following in relation to the discovery of gold mines in Hamilton's Valley, above Austin, which has aiready been briefly noticed in this paper:—The steamer James L. Day arrived this morning from Aransas and Matagorda bays. We are indebted to her commander, Capt. Talbot, for the Indianola Bulletin of the 12th inst., in advance of the mail. The most important item of news is the discovery of gold mines in Hamilton's Valley, above Austin. We have heard rumors of these mines by gentlemen from the interior, but we had ocular proaf of their existence in a specimen which Capt. Talbot exhibited to us this morning. It is a piece of quartz rock, a little larger than a common sized marbile, with pieces of bright gold attached to it. The color of the gold, is much clearer than California specimens. The Bulletin has the following information on the subject. A new Eldorado is now being found in our own beautiful State. Rumors are rife of large quantities of gold being found throughout the western portion of the country. We understand that there is great excitement prevailing at Austin, San Antonio, Soguin, Gonzales, and other points up the country,

our own trace, being that piece of quarks in San Antonio for \$25\$.

The Name of the 15th, has the following paragraph:—We learn from Capt. John Delesdernier that a portion of the side of a large ship, of 600 or 500 tons, drifted ashers on the beach, about eighten miles from this city, and another smaller piece came a shore about eight miles from here. The appearance of the week indicates that it has been in the water some considerable time, but from whence it came is a mystery. The planking was of beech and conversed.

—Two Pensons Killed.—Four companies of the Battalion of Light Infantry, Louisiana Legion, went over the river on Sanday, under the charge of General Augustin, for the purpose of battalion drill. Near the ground selected for the target exercise were some fine shady oak trees, under which the young men of Algiers had exceted a swing. The soldiers wanted all the shade, and the other party opposed it. It was finally cetted that the shade should be divided, and both parties exject it. After dinner, a man who went over with the soldiers to sell liquor, was ordered off the ground by a policeman for selling liquor without a license. This man states that some boys stole four bottles of heer from him. He is said to have thrown brickbats at them, and they beat blue in return. Thus the quarrel began, but it soon assumed a very serious as pect between the soldiers and the inhabitants. Rocks, clubs, bricks and first were used. The soldiers are said to have used their guns, putting nails and other things in to them to reader them effective. The officers deny this in 1600. For a time the war was force and bloody, and rumor last night represented that many persons were killed. Such we learn this morning is not the fact. A large number of persons on both alse were badly wonded, among whom were Jess Wood, who had his head badly laid open; policeman John Brownley, stabbed with a bayonet. There were four argests, via a captain, a drummer, a sergeant and a private. From all the account which we have learned, it was a terrible affait. The ire bells were rung, and the citizens were highly excited. The officers commending the soldiers in vain attempted to explain or quiet the matter as the soldiers were hunted out and abused. One man, and a boy were killed. It is a scaderful thing that there was not a greater loss of life.—New Cricons Picoyyou, April 18.

MONEY MARKET:

MONEY MARKET:

MONDAY, April 25—0 P. M.

There was not much activity in the stock market at the opening this morning, and prices were not very well sustained. The coal stocks were partially dull and heavy, and most of the transactions were for cash. There was a decided disposition to sell everything on the list, and much more stock was offered than found buyers. The loss of the steamship Independence had an unfavorable effect upon Nicaragua Transit, but it was merely temporary. We understand this steamer did not belong to the company, and was about being withdrawn from the line. The books close to morrow, for an election of directors The books close to morrow, for an election of directors for the ensuing year. A report will soon be made, showfor the ensuing year. A report will soon be made, showing the earnings and position of the company; and we learn that in June a dividend will be paid out of the net receipts of the past six months. At the first board to day Nicaragua declined 34 per cent.; Morris Canal, 34; Reading Railroad, 34; Montgomery Mining, 34; Florence and Keyport, 34; Cumberland Coal, 134; Parker Vein, 134; Erie Railroad, 34; Harlem 34; Panayara Railroad lem, 1/2; Panama Railroad, 1/4. Delaware and Hudson went up 1 per cent; Canton Company, 1/4; Cary Improve went up 1 per cent; Canton Company, 3; Cary Improve-ment, 3; New Creek, 3; Harlem, preferred, 3; Buffalo and Rochester Railroad, 23. It appears by this that the depreciation has been pretty general. The bears seemed to be the principal purchasers. The favorable turn in the money market has not had that influence upon the fancies holders have anticipated. Prices have advanced in certain instances, but, compared with quotations cur-rent in February last, there is yet a wide margin for improvement—much wider than will, in our opinion, be covered at present. Gool stocks are high enough, and poor stocks are already selling for more than they are worth. Notwithstanding this, we should not be surprised to see some of the fancies run up several per cent. It cannot, however, be otherwise than a temporary infla-tion, and those who avail themselves of it to clear out what they have on hand, or make contracts to deliver,

will show their good sense.

The receipts at the office of the Assistant Treasurer of this port, to day amounted to \$144,113 16; payments, \$82,727 67—balance \$6,958,287 72.

The Freeman's Bank of Washington has exploded. We

learn that there are no assets for the redemption of its notes.

est to the interoceanic connection between the Atlantic and the Pacific, which is about to take place over the Isthmus of Tehuantepec, we present the following statistics, as affording the most conclusive evidence that this route will prove, not only the shortest, but the most popular line of communication. On an examination of the map of this enteresting portion of America, it will be seen that Minatalan, on the Mexican gulf, is about 800 miles north of San Juan de Micaragua, and nearly 900 miles above that of Aspinwall, and that the city of Ventosa, on the Pacific, exceeds those distances from the eastern termination of the Panama and Nicaragua routes; consequently, with this great saving, travelling to California and the East Indies must follow, leaving to the Panama, as the most southern line, such intercourse as may be destined to and from South America. From ship navigation at Minatalan, on the Gulf of Mexico, to ship navigation to Ventosa, on the Pacific, the distance is, by the surveys of Major Bernard, 166 miles, and from Taltepec to Ventosa, in connection with light draught steamers, the land travel by railroad would be reduced to 104 miles, and the cost of a railroad of six feet track, between the latter points, is estimated at \$5,861,170, while that of the longest line, which is the one ultimately to be made, would be \$7.847.000.

We also derive from the same source the annexed statements of comparative distances through the respective routes to San Francisco :--

ers are to run in connection with the Tehuantepec route, and without waiting for the construction of the proposed railroad ; that this connection will be formed as soon as the President shall intimate his views on this subject of almost vital importance in affording a more

speedy communication between California and the Atlan tic States. Towards the completion of the Tehuantepec road, the necessary amount of money has already been engaged, by American and European capitalists, whose intelligent foresight show them that there could be no in vestment which would be likely to prove equally pro-

exports. In the face of this great excess, we see no important advance in the rates of foreign exchange or exportant advance in the rates of foreign exchange or ex-tensive shipment of specie. This is a very curious state of things, one which puzzles bill drawers exceedingly. We have been looking for a large outward movement of the precious metals, and of course an advance in quota-tions of sterling exchange. Our anticipations have not yet been realized, and the season has advanced so far that balances may be extended and their disposition changed. A few weeks ago the position of financial affairs in Eng-land was such as to induce us to believe that orders would come out by every steamer for the return of foreignland was such as to induce us to believe that orders would come out by every steamer for the return of foreign capital temporarily invested here. Since that time circumstances have occurred on the other side of a character to remove all such apprehensions, and strengthen the opinion that what foreign capital we have will not only remain among us but that it will increase as rapidly as it has at any previous time. The reduction in the rate of interest on a pertion of the national debt of Great Britain is calculated to turn the attention of British capitalists more directly to American securities; and we have no doubt it will have a very favorable effect, not only upon quotations for our stocks, but upon the demand. we have no doubt it will have a very tavorable effect, not only upon quotations for our stocks, but upon the demand for them. The proceeds of importations from Great Bri-tain this spring probably have not been remitted to the extentanticipated, in consequence of this change in the position of financial affairs in England. We cannot ac-count for the reduced rates ruling for exchange, and limited outward movement of specie, in any other satisfactory way, and are, therefore, disposed to accept this version of the matter. It is a fact that, within the past week or two, the money market has been steadily but gradually softening. We do not look for any reaction, but on the contrary anticipate, before the expiration of the month of June, great ease and abundance in money matters.
